Total Defence technology for us all

SECRECY ONE 
Human | Winning | Sovereign

Who has the
problem?

People who know that wifi, web,
and digital **are becoming more
dangerous for their workplaces
and personal lives every day**

**Some data from
Sweden, July 2026**

"Data published this week by Check Point Software shows **Swedish organizations** faced an average of roughly **2,350 cyberattacks per week in July** — a **36 percent year-on-year increase**, the sharpest rise in the Nordics and now the **second-highest exposure in Europe after Germany**, well above the global growth rate of **16 percent.**"

Igor van Gemert ✓ 🔊 He/Him · 1st

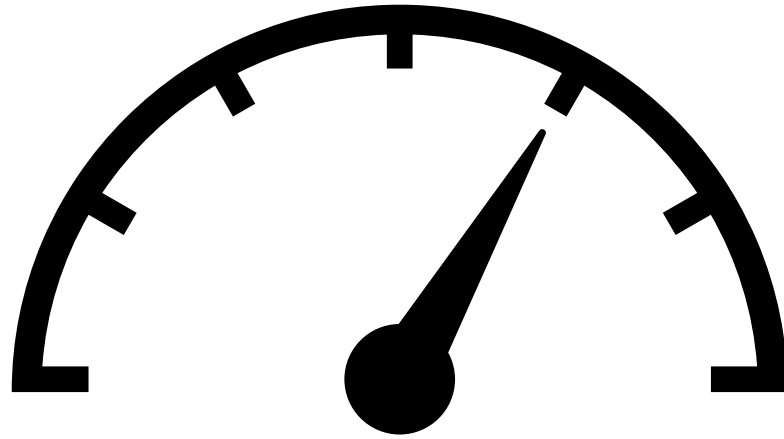

CEO focusing on cyber security solutions
and business continuity

What is our solution?

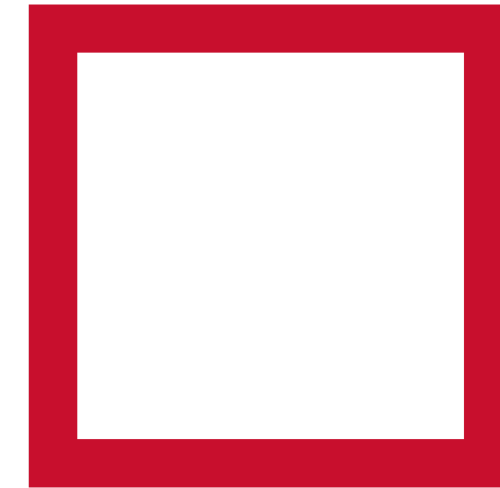

Forget the settings on our devices — focus
instead on finding
less risky environments.

The “Point-and-Protect”
of *all* cybersecurity apps

Total Defence technology for us all

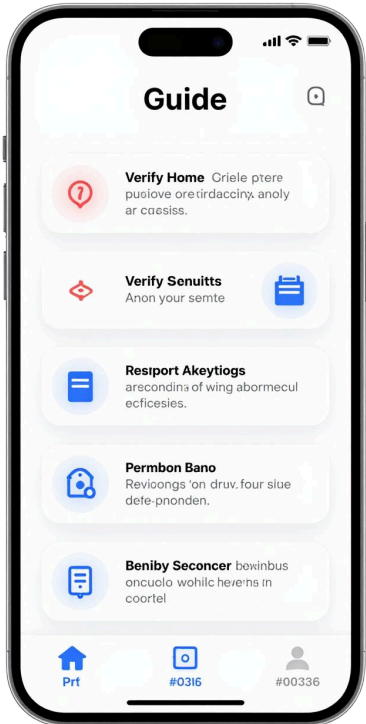

SCAN

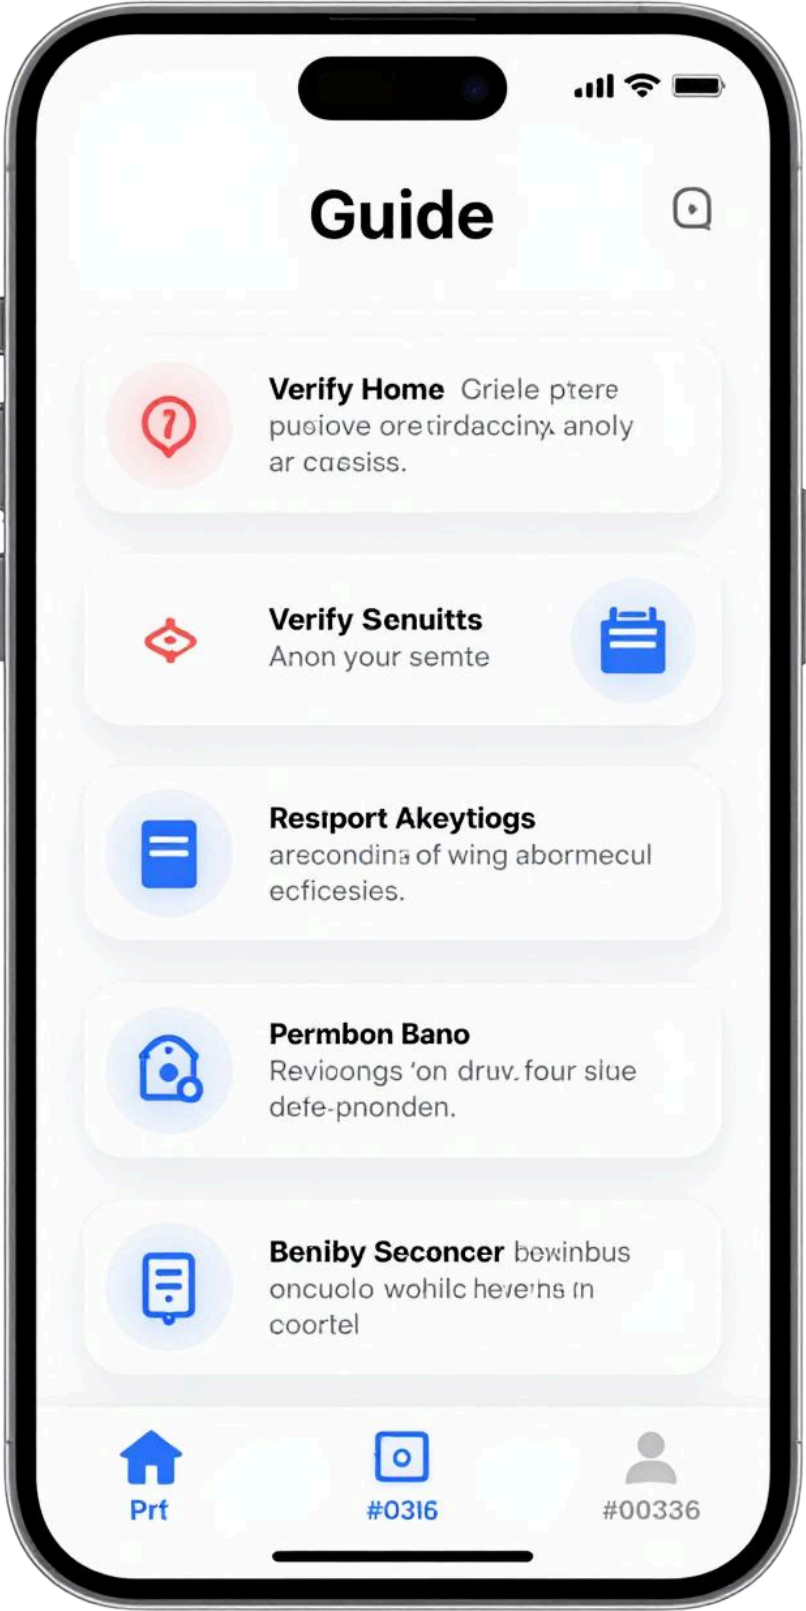

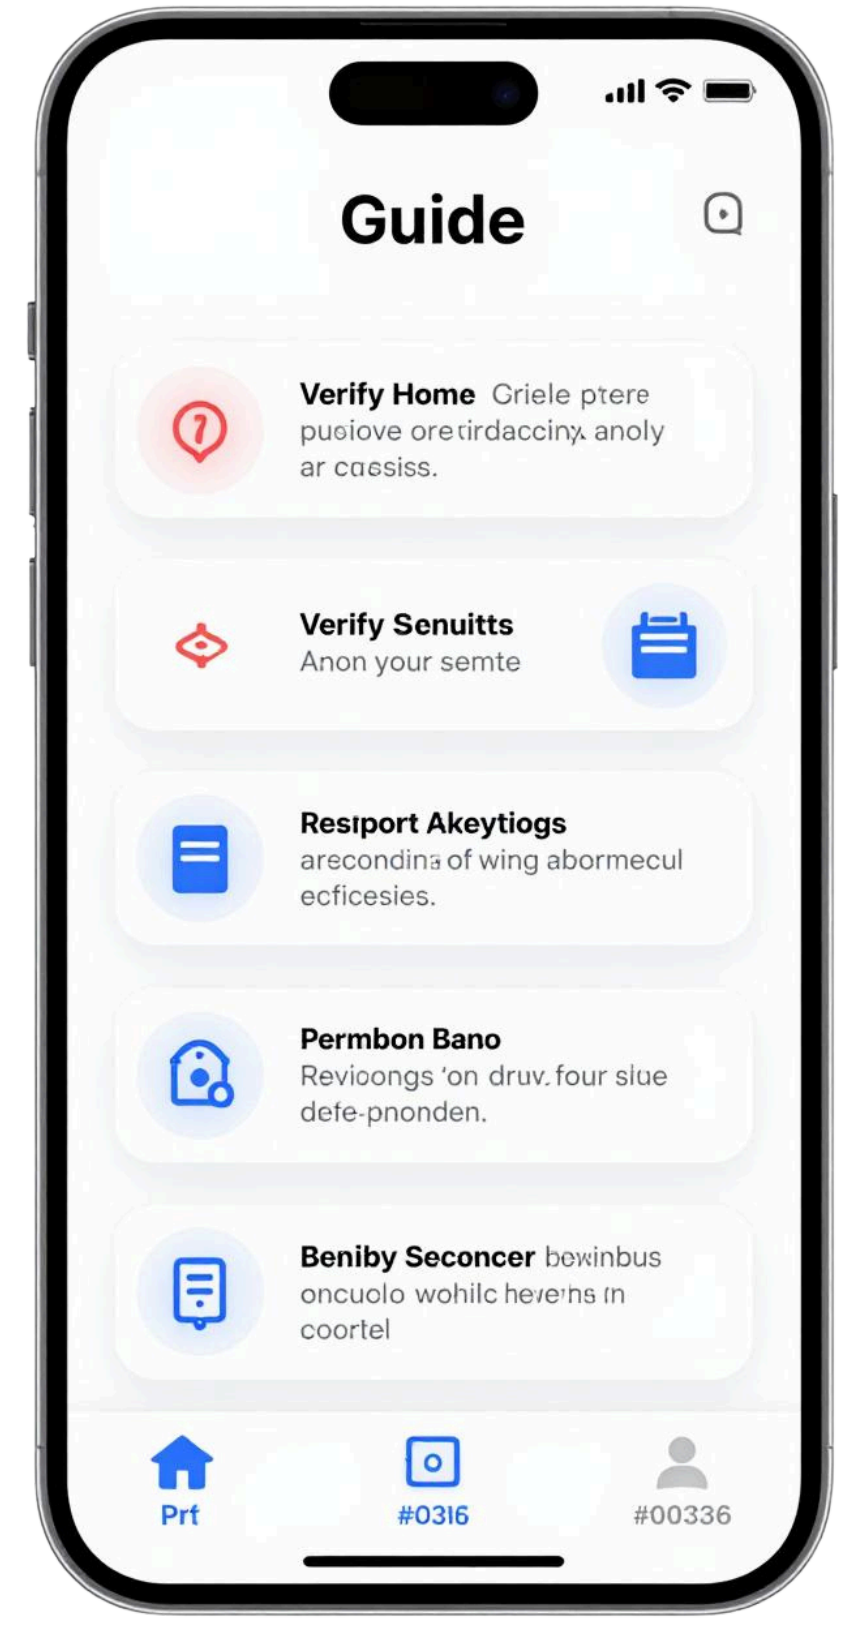

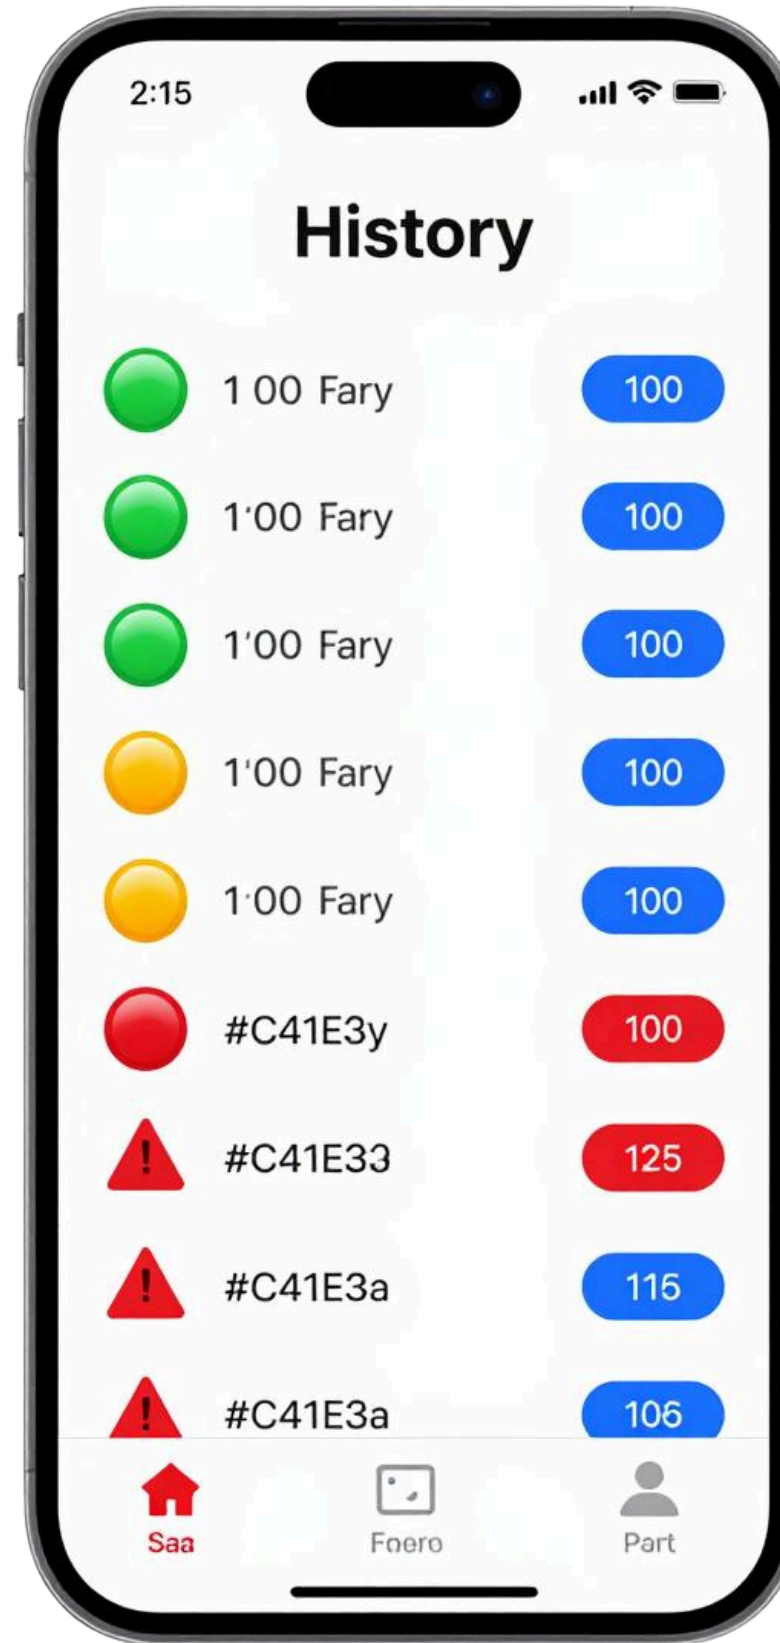

REMEMBER

LEARN

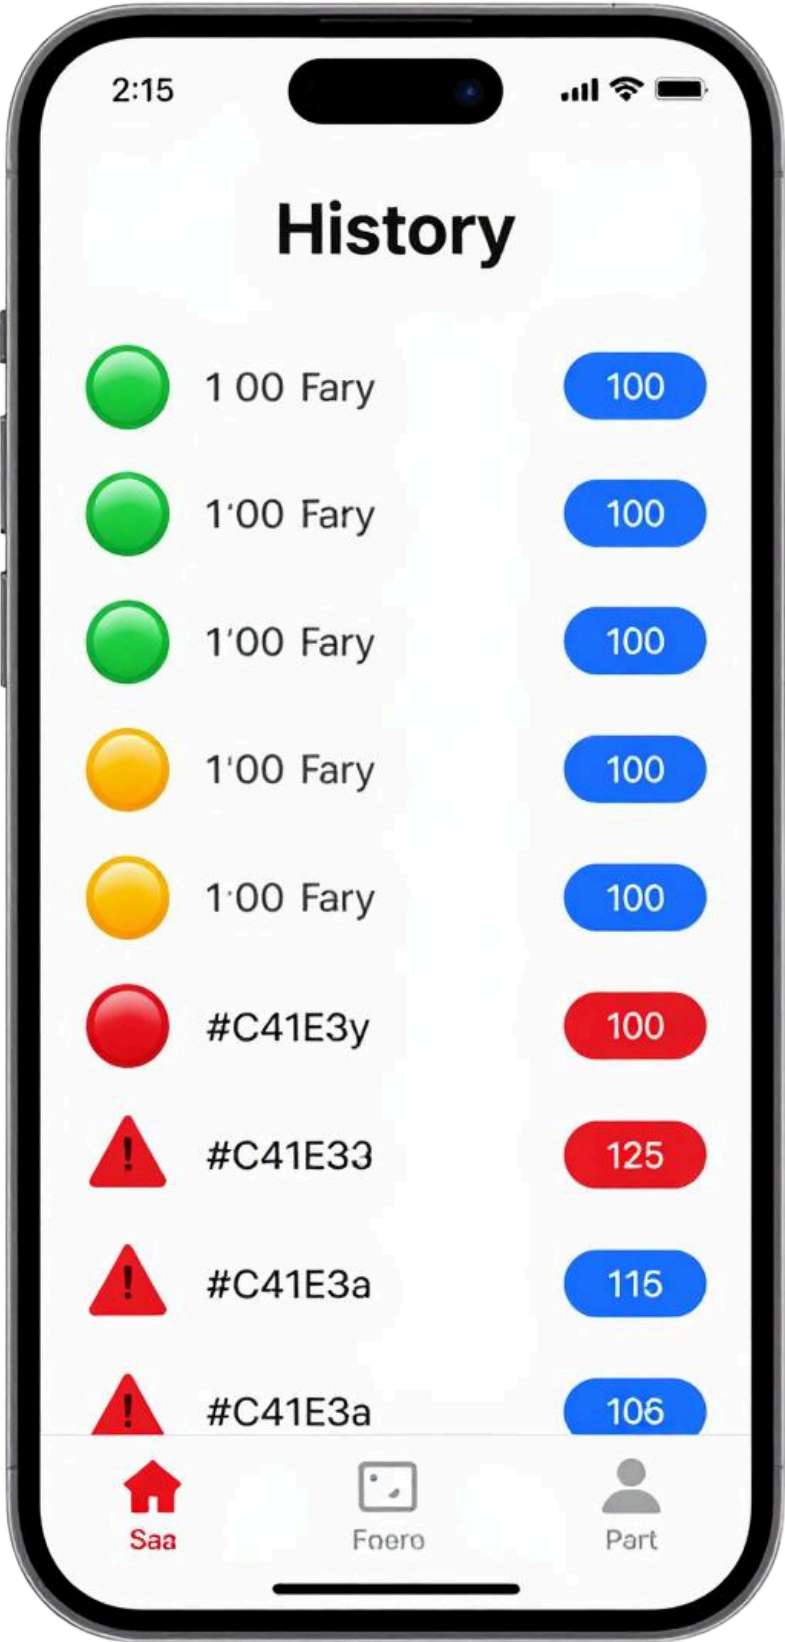

SCAN

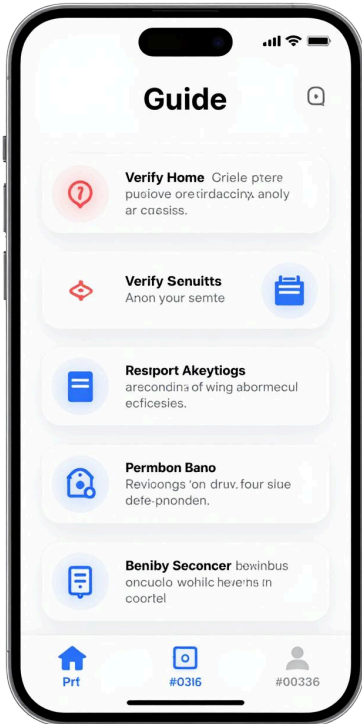

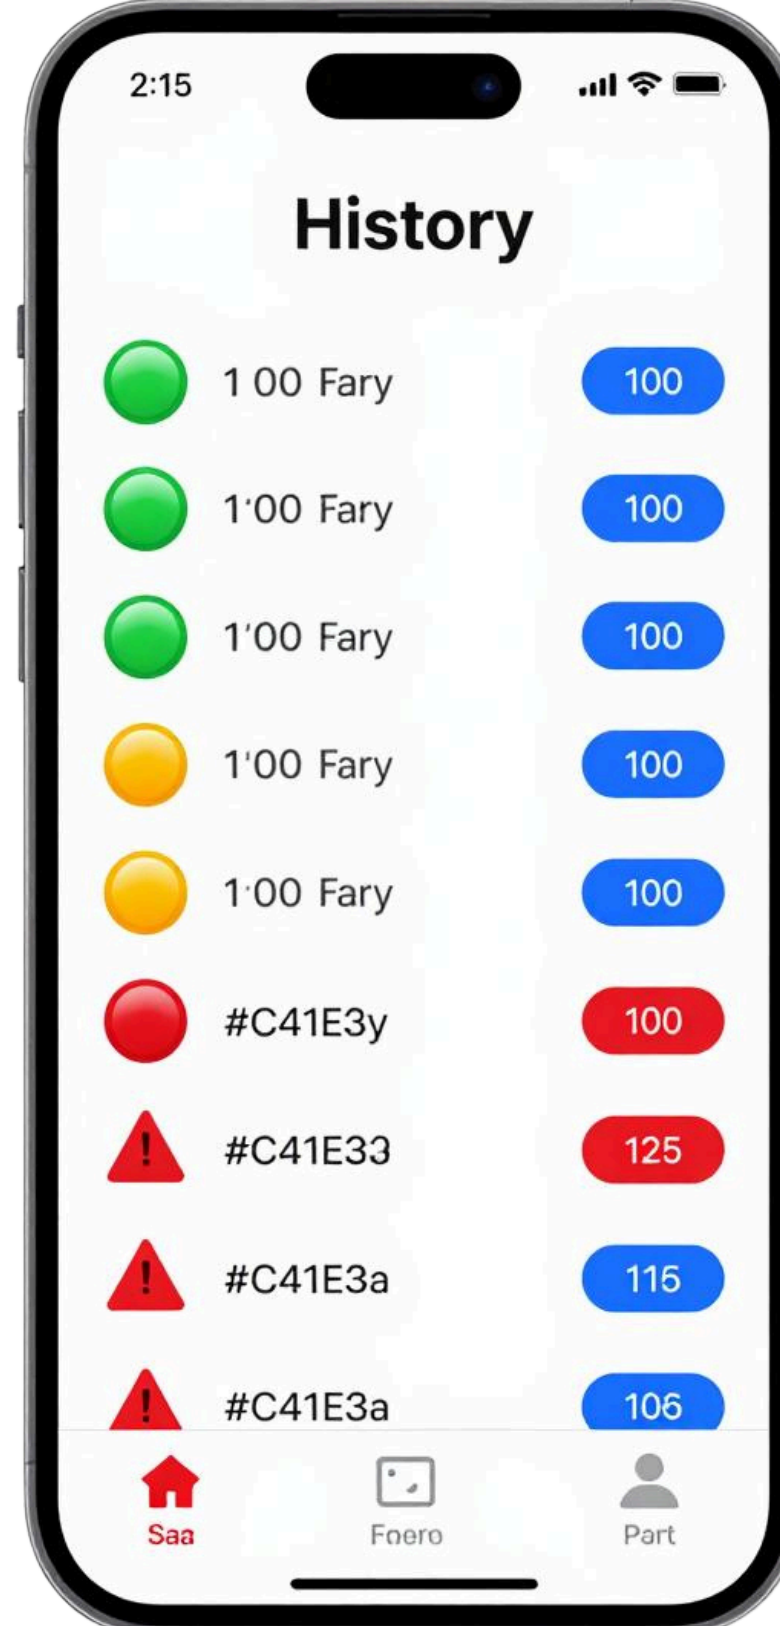

What if you could reduce the odds?

Point-and-protect — simply when you need to.

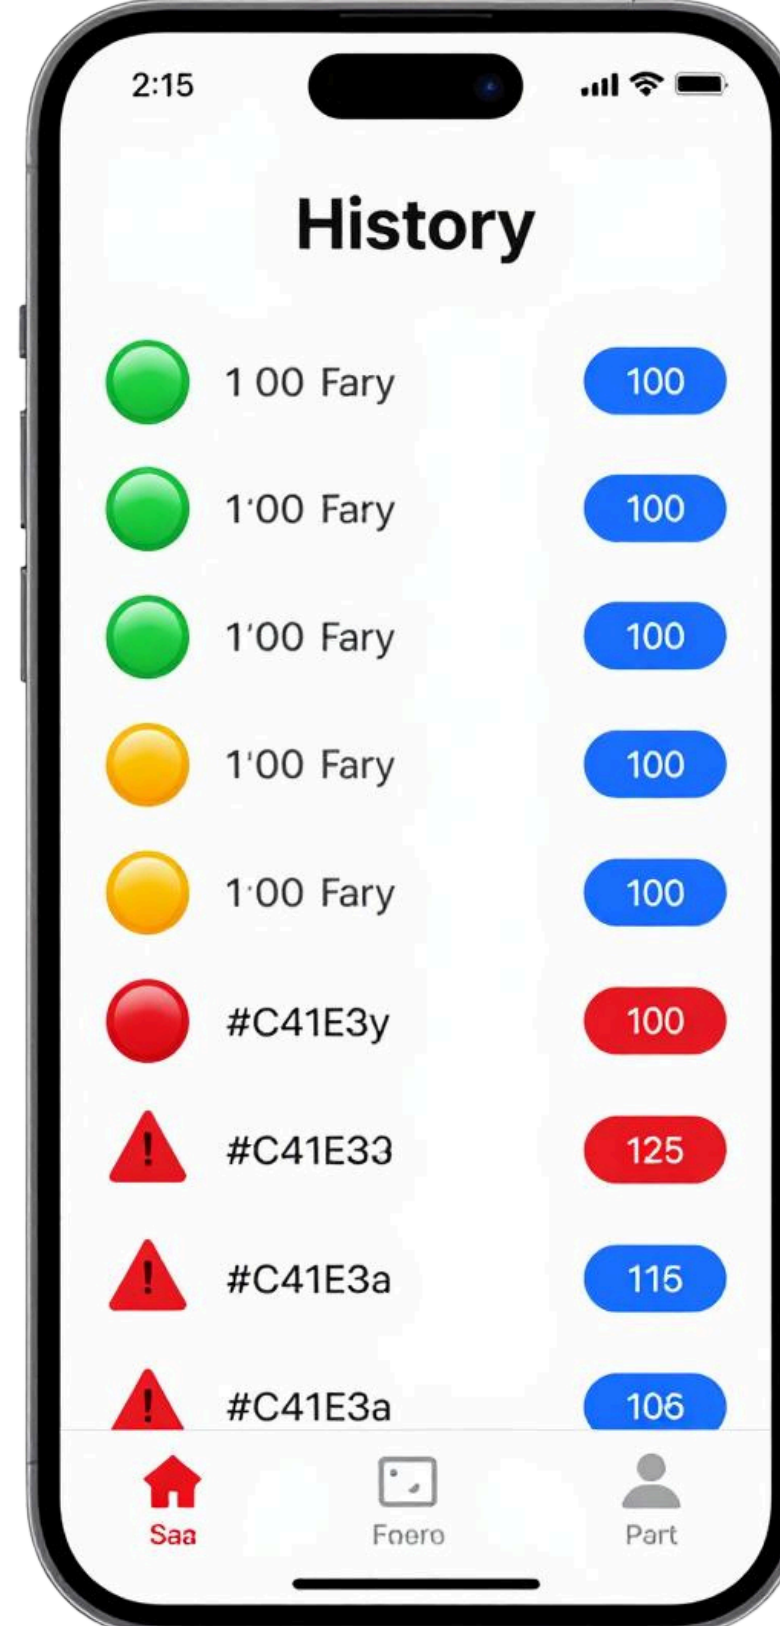

REMEMBER

Scan —
anything and
everything.

The more you
scan, the more
the app
remembers.

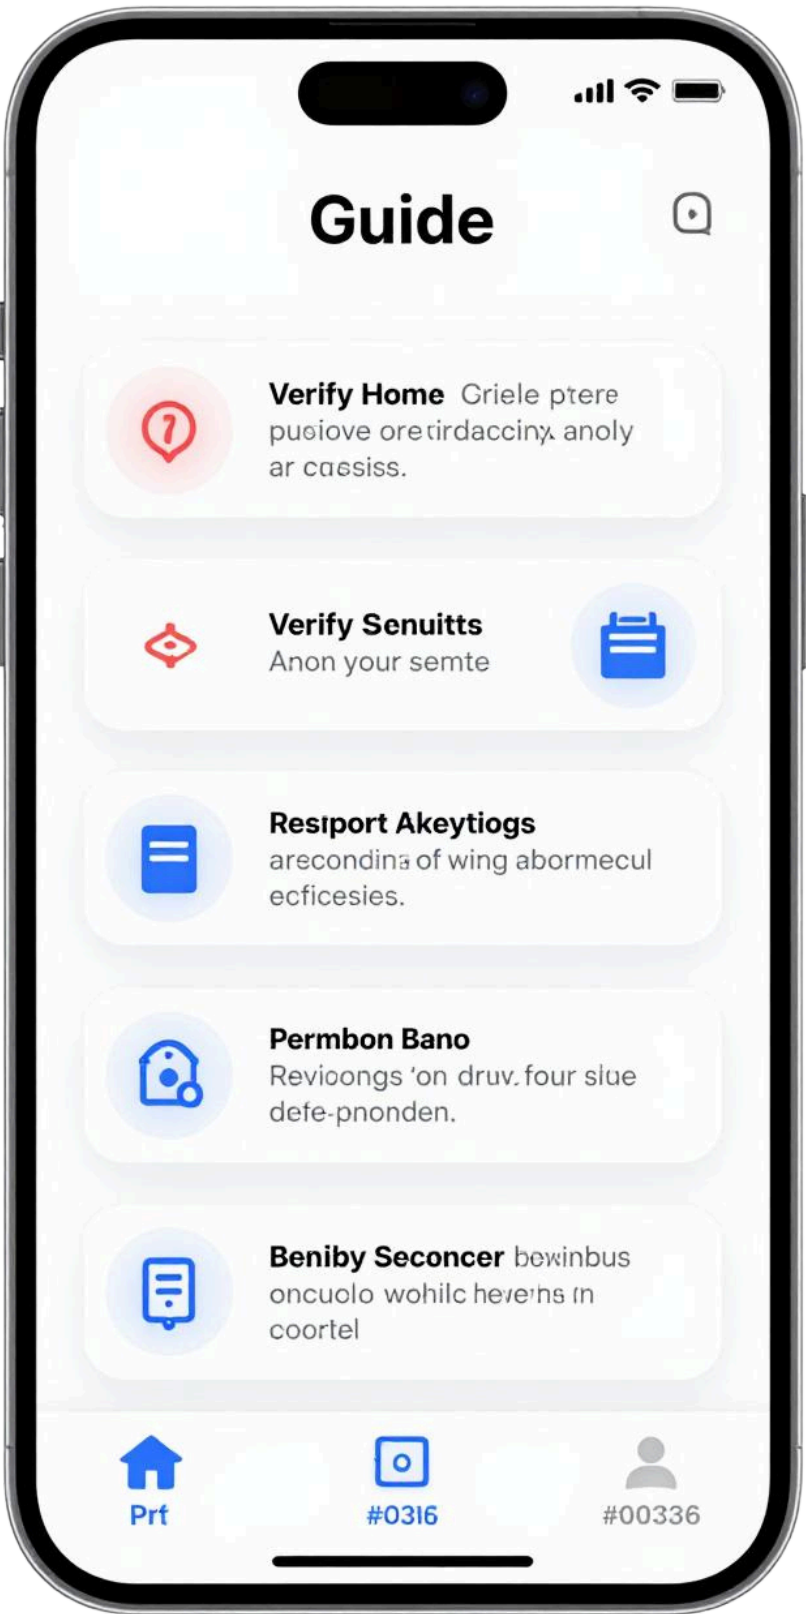

Become **savvy**
about digital —
people, places,
wifi, devices ...

Become a
digital warrior.

Fight back.

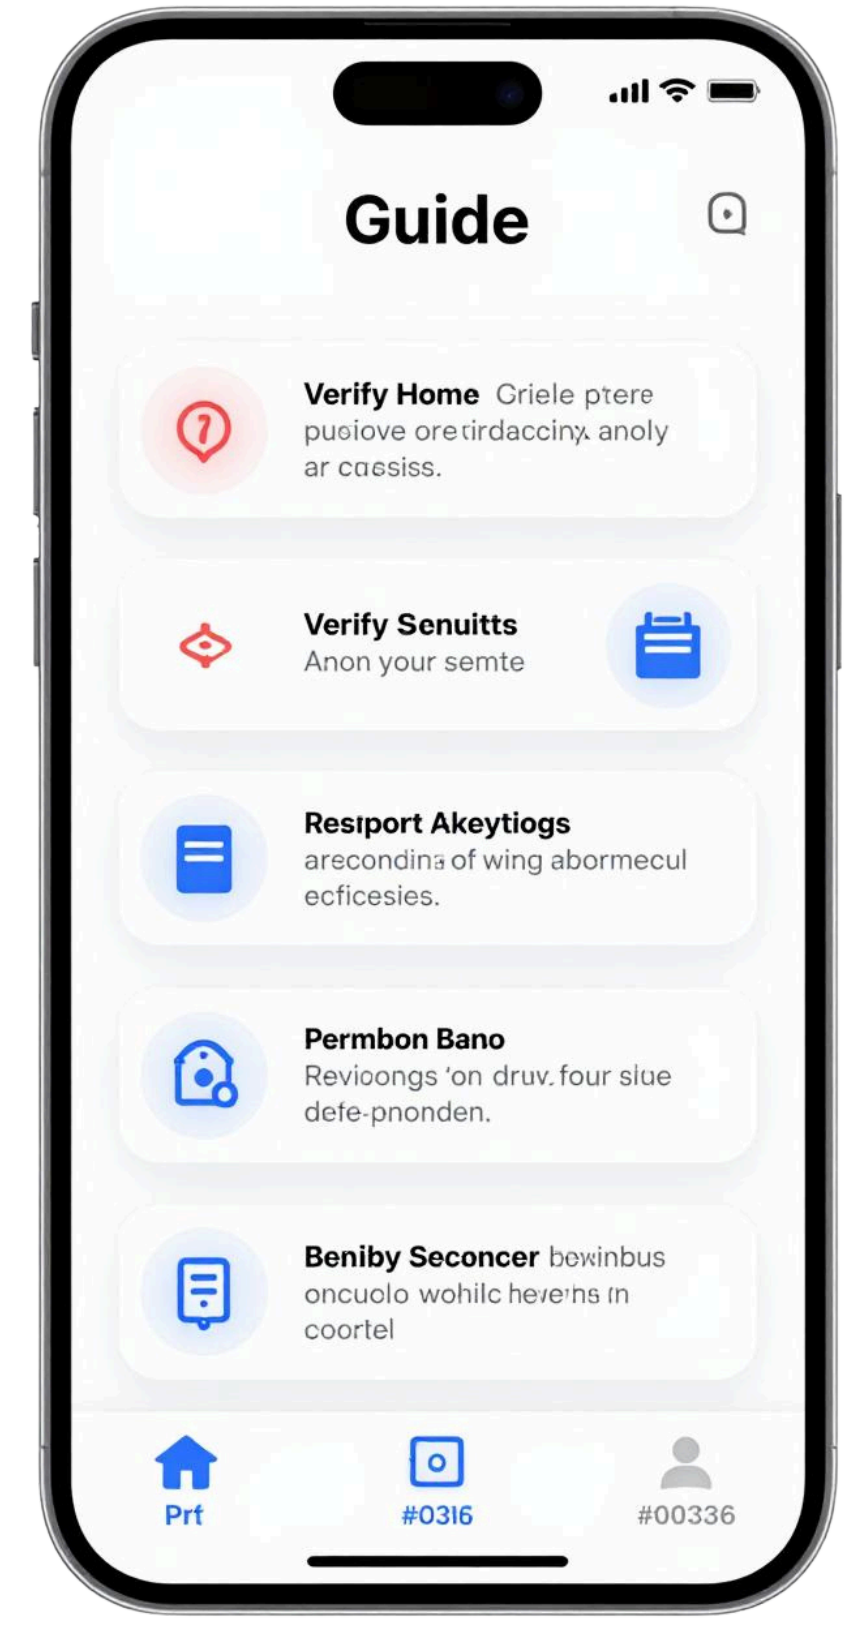

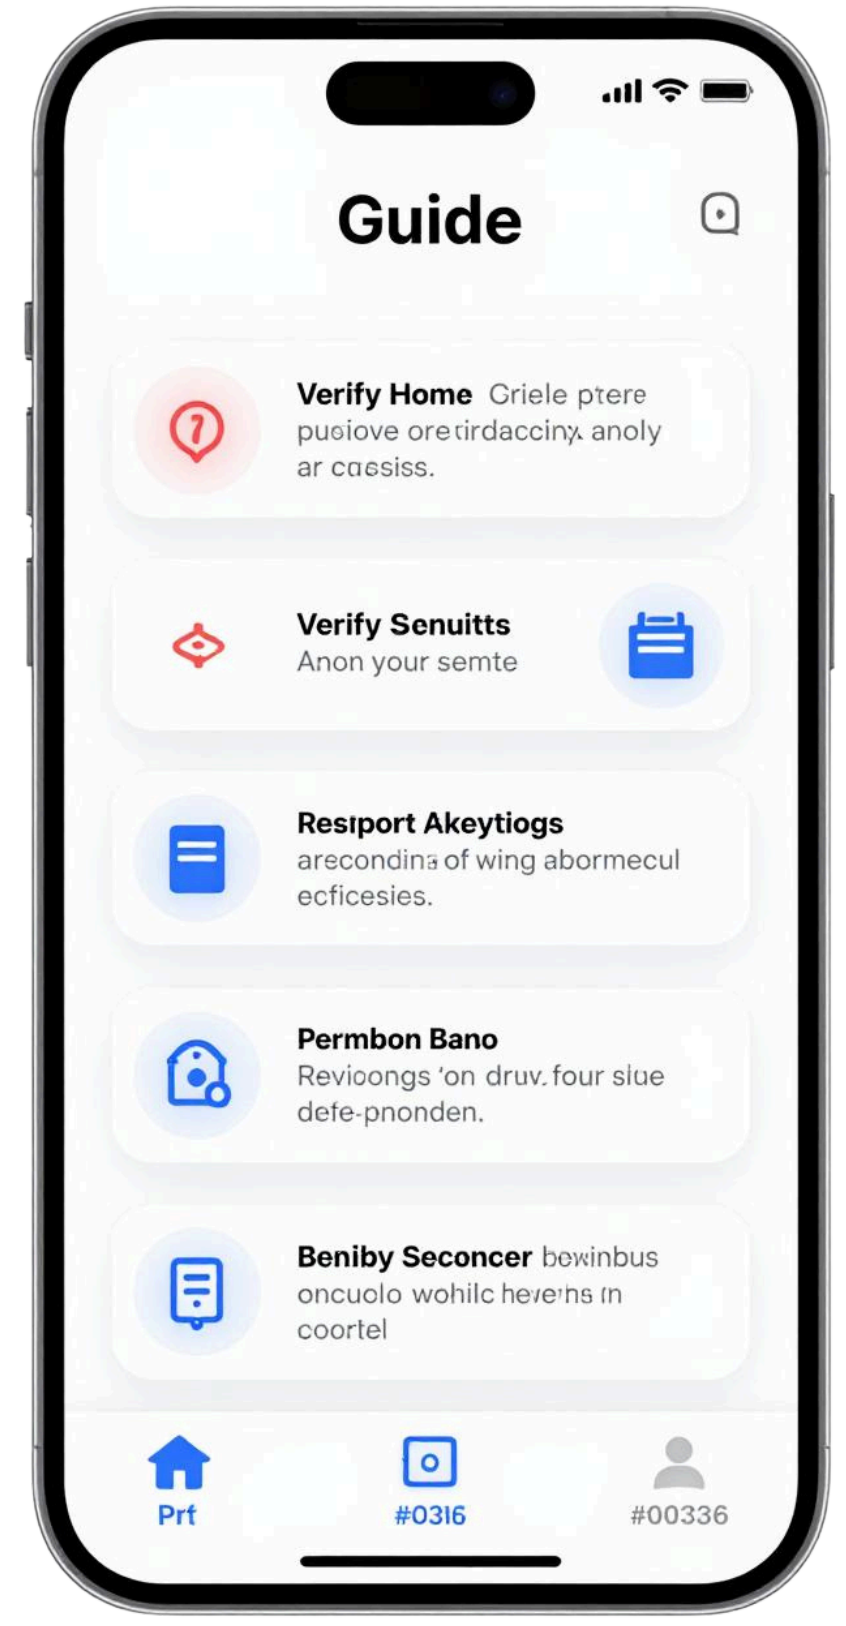

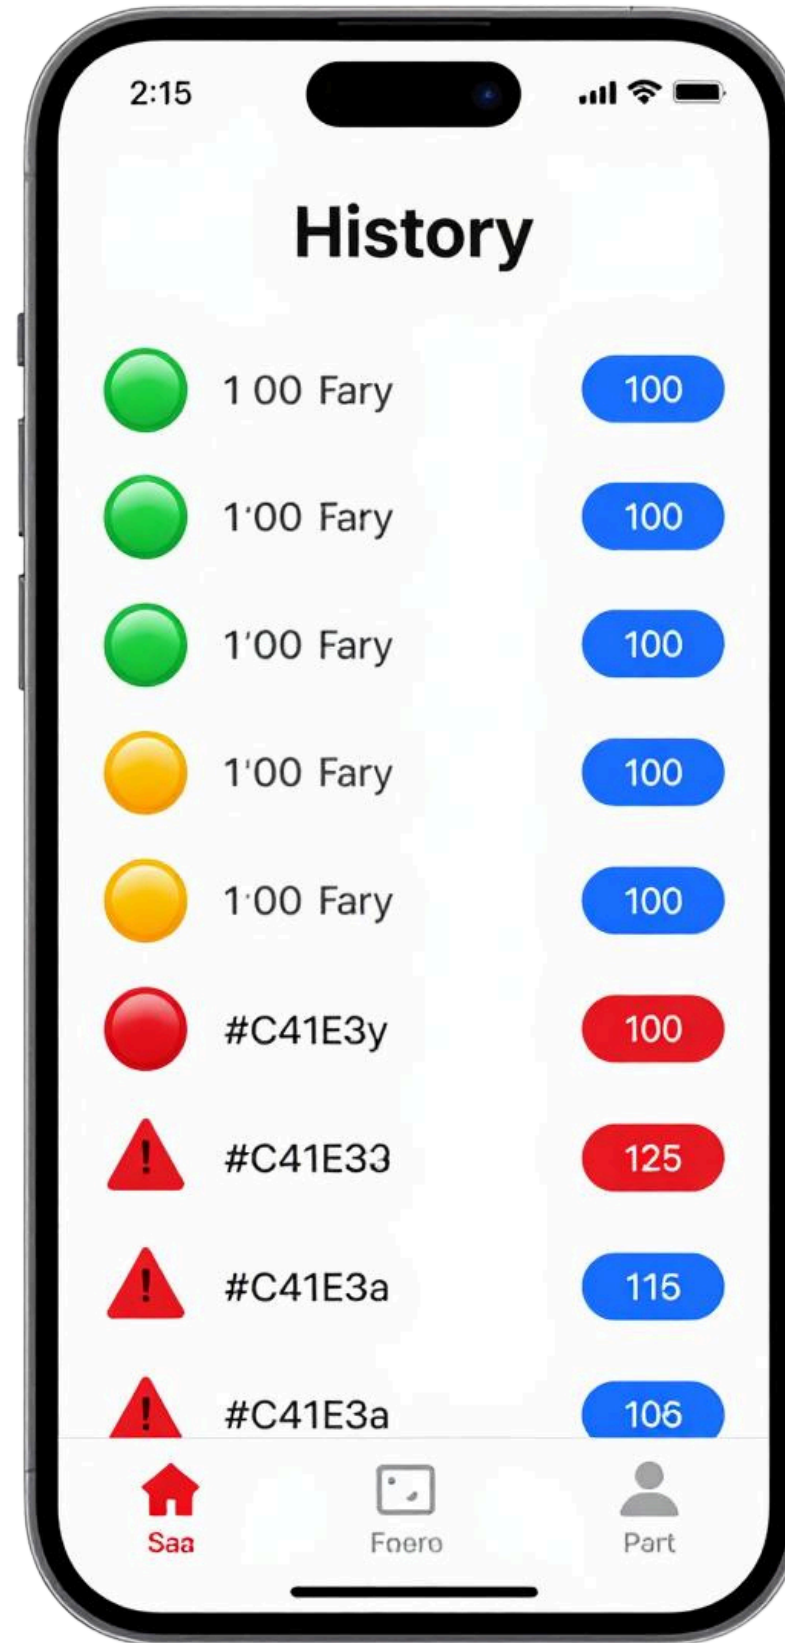

LEARN

- Point-and-protect
- Start to remember
- Finally learn

Business model and Traction

We **license the product** we have scoped and designed, to a **headline tech partner**.

The distribution network will be theirs, and we shall **co-design the messaging** with them.

For the clients they **already have**.

"Data published this week by Check Point Software shows **Swedish organizations** faced an average of roughly **2,350 cyberattacks per week in July** — a **36 percent year-on-year increase**, the sharpest rise in the Nordics and now the **second-highest exposure in Europe after Germany**, well above the global growth rate of **16 percent.**"
