

SECRECY ONE

Human | Winning | Sovereign

Why Choose **Secrecy One**: Our Foresight

Academically validated research into cognitive terrorism, digital cybercrime and hybrid and asymmetrical warfare since 2017.

- ✦ 2017: an MA in Criminal Justice dissertation which advocated the introduction of Total Defence in modern European democracies.
- ✦ 2018 onwards: a PhD proposal which argued for the study of “cognitive terrorism” — what I then called “neo-terrorism on the individual”.

Why Choose **Secrecy One**:

Examples of Our Last Ten Years of Research and Academia

- ✦ 2019: a submission to the UK Ministry of Defence DASA (the Defence and Security Accelerator).
 - ✦ <https://mils.page/ai>
- ✦ 2020 on two occasions: two submissions to the US-based UCB SkyDeck accelerator programme, on the accelerator's request in each case.
 - ✦ <https://gb2earth.com/historical/crimehunch>
- ✦ 2021 to 2023: a second "Crime Hunch" project, which was reviewed after a university consortium cyber course given by Lancaster University.
 - ✦ <https://gb2earth.com/hunch>

Why Choose **Secrecy One**:

What Dangers to Our Citizens and Businesses Do We See?

- ✦ **Hybrid and asymmetrical warfare, including cybercrime and cyberwarfare,**
- ✦ **conducted against citizens, SMEs and corporates**
- ✦ **is now in danger of becoming a type of cognitive Covid.**
 - ✦ But one thing in our favour. We already know what it's going to feel like.
 - ✦ And that means we have an action template.

"Data published this week by Check Point Software shows **Swedish organizations** faced an average of roughly **2,350 cyberattacks per week in July** — a **36 percent year-on-year increase**, the sharpest rise in the Nordics and now the **second-highest exposure in Europe after Germany**, well above the global growth rate of 16 percent."

Why Choose **Secrecy One**:

What Ready-Made Action Template Can We Provide?

- ✦ The first app, **Verify Home**, would be delivered in five months from start to finish, including testing, for citizens and SMEs.
- ✦ The second app, **Verify Plus**, would be co-designed with corporate CISOs on the basis of a pre-agreed concept.
- ✦ The third app, **Verify Away**, is designed to defend professionals from:
 - ✦ the cognitive terrorism of smart-glasses,
 - ✦ as well as a psychosocially coercive street criminality.

Why Choose **Secrecy One**: Our Foresight, Our Research, Dangers We See, Our Action Template, and Our Apps

To summarise:

- ✦ We've researched the kind of hybrid and asymmetrical warfare on individuals and businesses which is only now being recognised in the public domain over the past twelve months.

<https://secrecyone.co.uk/why-why-choose-to-work-with-Secrecy-One-Ltd>

Why Choose **Secrecy One**: Our Foresight, Our Research, Dangers We See, Our Action Template, and Our Apps

- ✦ Some citizens and corporations still don't recognise the reality.
- ✦ It's possible they remain victims of the cognitive terrorism I've described in this presentation.

<https://secrecyone.co.uk/why-why-choose-to-work-with-Secrecy-One-Ltd>

Why Choose **Secrecy One**: Our Foresight, Our Research, Dangers We See, Our Action Template, and Our Apps

- ✦ We have both a documented lived experience of as well as professional training in the kinds of experiences many of us don't even realise we're going through, but involve the worst criminality of all.

<https://secrecyone.co.uk/why-why-choose-to-work-with-Secrecy-One-Ltd>

Why Choose **Secrecy One**: Our Foresight, Our Research, Dangers We See, Our Action Template, and Our Apps

- ✦ ... *that which refuses to reveal itself.*
